SPEZIFIKATION
SPECIFICATION

SERVA Electrophoresis

Protein Molecular Weight Standards **Kat.Nr.**/Cat.No. : **39064**
range 12.4 – 450 kDa for native PAGE

Protein Components	Molecular weight
Cytochrome C horse heart	12 400
Myoglobin equine	17 800
Chymotrypsinogen A	25 000
Albumin egg	45 000
Albumin bovine (BSA)	67 000
Aldolase rabbit	160 000
Catalase bovine	240 000
Ferritin horse	450 000

SERVA Electrophoresis GmbH

The kit MS II contains 25 mg of each of the above mentioned, water soluble substances with well defined molecular weights in native electrophoresis.

Die Eignung des Produktes für spezielle Anwendungszwecke wird nicht zugesichert.
We do not guarantee that the product can be used for a special application.
