SERVA Electrophoresis Days 2014

SERVA

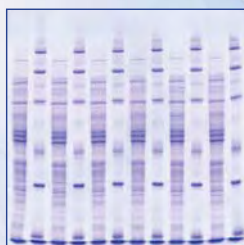

Electrophoresis

Seminar Tour 2014

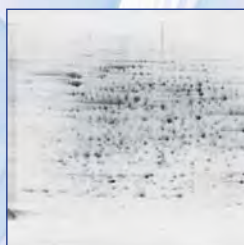

Protein Gel Electrophoresis and Proteome Analysis

Isoelectric Focusing

SDS PAGE

2D PAGE

Seminar Program

9:00 am – 12:30 am

- Basic principles of electrophoresis techniques
- Practical aspects of protein electrophoresis techniques: Isoelectric focusing, Native electrophoresis, SDS PAGE, 2D Gel Electrophoresis, Blotting
- Protein detection: Staining – Immunodetection – Fluorescence Labeling and Staining – Imaging
- Questions and Answers

Université de Lausanne

Thursday 5. November 2014

Département de Biochimie
Salle F308
Chemin des Boveresses 155
CH-1066 Epalinges

Registration under www.serva.de/SET14
or via e-mail: mail@witec.ch

Attendance is free.
For more information on upcoming seminars please go to www.serva.de.

SERVA Electrophoresis Days 2014: Protein Gel Electrophoresis and Proteome Analysis

The SERVA Electrophoresis Days are an advanced training course about protein gel electrophoresis and proteome analysis where theoretical and practical aspects of the different techniques are discussed.

November 6th, 2014	Program	Speaker
9:00	Welcome	Johann Mauron Witec AG, Luzern
9:05	Basic Principles of Electrophoresis Techniques	Günter Theßeling SERVA Electrophoresis GmbH, Heidelberg
10:40	Coffee Break	
11:00	Practical Aspects of Protein Electrophoresis Techniques: Isoelectric Focusing - Native PAGE - SDS PAGE - 2D Gel Electrophoresis - Blotting	Günter Theßeling SERVA Electrophoresis GmbH, Heidelberg
12:00	Protein Detection: Staining- Immunodetection - Fluorescence Labeling and Staining - Imaging	
12:30	End of the Seminar – Questions and Answers	

Location : Université de Lausanne
Département de Biochimie, Salle F308
Chemin des Boveresses 155
CH-1066 Epalinges

Registration (by Fax: +49-6221 13840-54; by email: mail@witec.ch)

The seminar is free of charge.
