Printing date 11/09/2023

· Chemical characterization: Substances

- CAS No. Description:
- 9003-11-6 Ethylene glycol propylene glycol copolymer
- · Identification number(s): -

(Contd. on page 2)

Printing date 11/09/2023

Reviewed on 11/09/2023

Trade name: Synperonic[®] F108

· Description:

• **MW:** ca. 14000

4 First-aid measures

- · Description of first aid measures
- · General information: No special measures required.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Wash off immediately with soap and water and rinse thoroughly. In case of complaints, consult a doctor. After eye contact:

Rinse opened eye for several minutes with running water. Remove existing contact lenses, if possible, and continue rinsing. In case of complaints, consult an ophthalmologist.

- After swallowing: Wash out the mouth and call a doctor.
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- *Indication of any immediate medical attention and special treatment needed* No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- \cdot Suitable extinguishing agents:
- CO_2 extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • Special hazards arising from the substance or mixture
- In case of fire, formation of hazardous fire gases or vapors possible. In case of fire, the following can be released:

Carbon monoxide and carbon dioxide

- · Advice for firefighters
- · Protective equipment: Wear self-contained breathing apparatus.
- · Additional information

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

- *Personal precautions, protective equipment and emergency procedures Wear protective clothing. Ensure adequate ventilation*
- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- Methods and material for containment and cleaning up

Dispose contaminated material as waste according to section 13. Pick up mechanically.

- Protective Action Criteria for Chemicals
- · PAC-1: 6.9 mg/m³
- · PAC-2: 76 mg/m³
- · PAC-3: 460 mg/m³
- **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

• **Precautions for safe handling:** Ensure good ventilation/exhaustion at the workplace. No special measures required. (Contd. of page 1)

(Contd. of page 2)

Safety Data Sheet acc. to OSHA HCS

Printing date 11/09/2023

Reviewed on 11/09/2023

Trade name: Synperonic[®] F108

- · Information about protection against explosions and fires: Keep ignition sources away Do not smoke.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Store container tightly closed and dry.
- Specific end use(s): No further relevant information available.

8 Exposure controls/personal protection

- · Control parameters
- Components with limit values that require monitoring at the workplace: Not required.
- Additional information: The lists that were valid during the creation were used as basis.
- · Exposure controls
- Additional information about design of technical systems: No further data; see section 7.
- Personal protective equipment:
 General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes and skin.
- · Breathing equipment: Suitable respiratory protective device recommended.
- · Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· Penetration time of glove material:

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

 \cdot For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:

Nitrile rubber, NBR Natural rubber, NR

• Eve protection: Safety glasses

• **Body protection:** Protective work clothing

9 Physical and chemical properties

 Information on basic physical and chem General Information: 	ical properties
· Color:	White
· Odor:	Product specific
· Odor threshold:	Not determined.
• Melting point/Melting range:	55-60 °C (131-140 °F)
· Boiling point/Boiling range:	No information available
· Flammability (solid, gaseous):	Based on available data, the classification criteria for
	flammable solids are not met.

Explosion limits:	
Lower:	No information available
Upper:	No information available
Flash point:	242 °C (467.6 °F)
Decomposition temperature:	No information available
pH-value:	5-7.5
Viscosity:	
Kinematic viscosity:	No information available
Dynamic viscosity:	No information available
Solubility in / Miscibility with:	
Water at 20 °C (68 °F):	> 100 g/l
Partition coefficient (n-octanol/water):	No information available
Vapor pressure:	No information available
Vapor pressure:	•
Density:	No information available
Relative density:	No information available
Other information	
Appearance:	
Form:	Flakes
Important information on protection of healt environment, and on safety:	th and
Danger of explosion:	The product is not explosive, but the formation of
	explosive dust/air mixtures is possible.
Molecular weight	~14,000 g/mol

10 Stability and reactivity

· Reactivity: No further relevant information available.

- · Chemical stability:
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions:
- As the product is supplied it is not capable of dust explosion; however enrichment with fine dust causes risk of dust explosion.
- · Conditions to avoid: No further relevant information available.
- · Incompatible materials: Avoid contact with strong oxidizers.
- · Hazardous decomposition products: In case of fire: see section 5

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity: Based on available data, the classification criteria are not met.
- on the skin: Based on available data, the classification criteria are not met.
- on the eye: Based on available data, the classification criteria are not met.
- Sensitization: Based on available data, the classification criteria are not met.
- · Germ cell mutagenicity: Based on available data, the classification criteria are not met.
- · Carcinogenicity: Based on available data, the classification criteria are not met.
- *Reproductive toxicity:* Based on available data, the classification criteria are not met.
- · Specific target organ toxicity single exposure:
- Based on available data, the classification criteria are not met.
- · Specific target organ toxicity repeated exposure:
- Based on available data, the classification criteria are not met.
- · Aspiration hazard: Based on available data, the classification criteria are not met.

- · Additional toxicological information:
- · Carcinogenic categories
- · IARC (International Agency for Research on Cancer) Substance is not listed.
- · NTP (National Toxicology Program) Substance is not listed.
- · OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information

- · Toxicity:
- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability: No further relevant information available.
- · Other information: The product is not easily biodegradable.
- · Bioaccumulative potential: No further relevant information available.
- \cdot Mobility in soil: No further relevant information available.
- · Results of PBT and vPvB assessment:
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- Other adverse effects:
- Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system. Water hazard class 1 (Assessment by list): slightly hazardous for water

13 Disposal considerations

- · Waste treatment methods
- · Recommendation: Dispose of in accordance with official regulations.
- · Uncleaned packagings:
- · Recommendation:

Uncleaned packaging must be disposed of in the same way as the product in accordance with official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.

14 Transport information

· UN-Number · DOT, ADR, ADN, IMDG, IATA	Void
· UN proper shipping name · DOT, ADR, ADN, IMDG, IATA	Void
· Transport hazard class(es)	
· DOT, ADR, ADN, IMDG, IATA · Class	Void
· Packing group · DOT, ADR, IMDG, IATA	Void
· Environmental hazards	Not applicable.
· Special precautions for user	Not applicable.
• Transport in bulk according to Annex I MARPOL73/78 and the IBC Code	II of Not applicable.
· Transport/Additional information:	Not dangerous according to the above specifications.
