(Contd. of page 1)

Trade name: Protease Inhibitor Mix P

- P405 Store locked up.
- *P501* Dispose of contents/container in accordance with local/regional/national/international regulations.
- · 2.3 Other hazards
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · **vPvB:** Not applicable.

SECTION 3: Composition/information on ingredients

· Description: Mixture of the substances listed below with harmless additions.

·	Dangerous	components:
---	-----------	-------------

Dungerous componentsi		
	1,10-phenanthroline	70-90%
EINECS: 200-629-2	🔶 Acute Tox. 3, H301; 🚯 Aquatic Acute 1, H400; Aquatic Chronic 1, H410	
CAS: 103476-89-7	L-leucinamide, N-acetyl-L-leucyl-N-[(1S)-4-[(aminoiminomethyl)amino]-1-	1-3%
	formylbutyl]-, sulfate (2:1)	
	Acute Tox. 4, H302; Acute Tox. 4, H332	
A 11'4' 1' C	En al constitue of the listed harmond schemes a sefere to continue 16	

• Additional information For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

- 4.1 Description of first aid measures
- · General information Remove contaminated clothing.
- After inhalation Supply fresh air and to be sure call for a doctor.
- · After skin contact Immediately rinse with water.
- · After eye contact Rinse opened eye for several minutes under running water. Then consult doctor.
- After swallowing
- *Rinse out mouth and then drink plenty of water. Call for doctor immediately.*
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- **4.3** Indication of any immediate medical attention and special treatment needed No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

- · Suitable extinguishing agents
- CO_2 , extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • 5.2 Special hazards arising from the substance or mixture
- In case of fire, the following can be formed, but not limited to: Nitrogen oxides (NOx) Carbon monoxide and carbon dioxide Sulphur dioxide (SO₂)
- · 5.3 Advice for firefighters
- Protective equipment: Wear self-contained respiratory protective device.

SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures Wear protective clothing.

· 6.2 Environmental precautions:

Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water.

(Contd. on page 3)

GB

Printing date 03.05.2018

Version number 2

Revision: 03.05.2018

(Contd. of page 2)

Trade name: Protease Inhibitor Mix P

 6.3 Methods and material for containment and cleaning up: Dispose contaminated material as waste according to item 13.
 6.4 Reference to other sections

See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

SECTION 7: Handling and storage

• 7.1 Precautions for safe handling Prevent formation of dust.

Ensure good ventilation/exhaustion at the workplace.

· Information about protection against explosions and fires: No special measures required.

· 7.2 Conditions for safe storage, including any incompatibilities

· Storage

- Requirements to be met by storerooms and receptacles: Store at -15 to -25 °C
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Store under lock and key and with access restricted to technical experts or their assistants only. Store in dry conditions.
- Protect from exposure to the light.
- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- · 8.1 Control parameters
- · Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- Additional information: The lists that were valid during the creation were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment
- General protective and hygienic measures Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.
- **Breathing equipment:** Short term filter device: Filter P3.
- · Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

(Contd. on page 4)

Printing date 03.05.2018

Version number 2

Revision: 03.05.2018

Trade name: Protease Inhibitor Mix P

(Contd. of page 3) • For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable: Natural rubber, NR Nitrile rubber, NBR

• Eye protection: Safety glasses

• **Body protection:** Protective work clothing.

SECTION 9: Physical and chemical properties

• 9.1 Information on basic physical and ch	nemical properties	
· General Information		
· Appearance:		
Form:	Powder	
Colour:	White	
· Odour:	Odourless	
· Change in condition		
Melting point/freezing point:	undetermined	
Initial boiling point and boiling range:	undetermined	
· Flash point:	Not applicable	
· Self igniting:	Product is not selfigniting.	
· Explosive properties:	Product does not present an explosion hazard.	
· Density:	Not determined	
· Solubility in / Miscibility with		
Water:	Insoluble	
• Organic solvents at 20 •C:	64.2 g/l (DMSO)	
· Solvent content:		
Organic solvents:	0.0 %	
Solids content:	100.0 %	
• 9.2 Other information	There are no more data available.	

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions No dangerous reactions known
- · 10.4 Conditions to avoid No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Sulphur oxides (SOx)

SECTION 11: Toxicological information

- · 11.1 Information on toxicological effects
- Acute toxicity
- Toxic if swallowed.

(Contd. on page 5)

⁻ GB

Trade name: Protease Inhibitor Mix P

· LD/LC50 values that are relevant for classification:

5144-89-8 1,10-phenanthroline

Oral LD50 145 mg/kg (rat)

· Primary irritant effect:

• Skin corrosion/irritation Based on available data, the classification criteria are not met.

· Serious eye damage/irritation Based on available data, the classification criteria are not met.

- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- *Reproductive toxicity Based on available data, the classification criteria are not met.*
- STOT-single exposure Based on available data, the classification criteria are not met.
- · STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

· 12.1 Toxicity

- · Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- Ecotoxical effects:
- *Remark:* Very toxic for fish
- · Additional ecological information:
- · General notes:

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water. Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground. Also poisonous for fish and plankton in water bodies.

Very toxic for aquatic organisms

- · 12.5 Results of PBT and vPvB assessment
- · **PBT:** PBT assessment not available.
- · **vPvB**: vPvB assessment not available.
- · 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

- · 13.1 Waste treatment methods
- · Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- **Recommendation:** Disposal must be made according to official regulations.

SECTION 14: Transport information • 14.1 UN-Number • ADR, IMDG, IATA UN2811 • 14.2 UN proper shipping name • ADR 2811 TOXIC SOLID, ORGANIC, N.O.S. (1,10-phenanthroline) • IMDG TOXIC SOLID, ORGANIC, N.O.S. (1,10-phenanthroline) • IMDG TOXIC SOLID, ORGANIC, N.O.S. (1,10-phenanthroline)

Printing date 03.05.2018
