

Decontamination Form

Important notice: Before equipment is shipped, it must be thoroughly cleaned and decontaminated. Particular attention is drawn to the applicable regulations on hazardous substances and radiation protection, as amended. This decontamination form serves as binding documentation. Please attach the completed and signed form to the outside of the packaging. This helps us prevent any risk to employees of SERVA Electrophoresis GmbH during goods receipt and subsequent internal processes. Unfortunately, equipment received without this accompanying form must be returned to the sender at the sender's expense.
