Trade name: Cytochalasin B

· HMIS-ratings (scale 0 - 4)

• Other hazards

· Results of PBT and vPvB assessment:

• **PBT:** PBT - Assessment not available.

· **vPvB**: vPvB - Assessment not available.

3 Composition/information on ingredients

- · Chemical characterization: Substances
- CAS No. Description: 14930-96-2 Cytochalasin B
- · Identification number(s):
- EC number: 239-000-2
- · Description:
- Empirical formula:  $C_{29}H_{37}NO_5$
- · MW: 479.60

### 4 First-aid measures

#### · Description of first aid measures

· General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

Immediately remove any clothing soiled by the product.

Remove breathing apparatus only after contaminated clothing have been completely removed.

• After inhalation: Supply fresh air or oxygen; call for doctor.

· After skin contact:

Wash off immediately with plenty of soap and water; rinse thoroughly; seek medical attention.

· After eye contact:

Rinse opened eye for several minutes with running water. Remove existing contact lenses, if possible, and continue rinsing. Consult an ophthalmologist immediately.

· After swallowing:

*Rinse mouth immediately. Drink plenty of water and fresh air. Call a doctor immediately. Do not induce vomiting!* 

- Most important symptoms and effects, both acute and delayed No further relevant information available. • Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

## **5** Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- $CO_{2}$  extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • Special hazards arising from the substance or mixture
- In case of fire, the following can be released: Nitrogen oxides (NOx) Carbon monoxide and carbon dioxide
- Advice for firefighters
- · Protective equipment: Wear self-contained breathing apparatus.

### 6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Wear protective clothing.
   Ensure adequate ventilation Avoid formation of dust.
- Environmental precautions: Do not allow to enter sewers/ surface or ground water.

#### · Methods and material for containment and cleaning up

- *Dispose contaminated material as waste according to section 13. Pick up mechanically.*
- · Protective Action Criteria for Chemicals
- · PAC-1: Substance is not listed.
- · PAC-2: Substance is not listed.
- · PAC-3: Substance is not listed.
- **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# 7 Handling and storage

- Precautions for safe handling: Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care.
- · Information about protection against explosions and fires: Keep ignition sources away Do not smoke.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- *Requirements to be met by storerooms and receptacles:* Storage at +2 to +8 °C Store only in the original receptacle.
- · Information about storage in one common storage facility: Store away from oxidizing agents.
- Further information about storage conditions: Store under lock and key and with access restricted to technical experts or their assistants only. Store container tightly closed and dry.
- *Specific end use(s): No further relevant information available.*

#### 8 Exposure controls/personal protection

- · Control parameters
- · Components with limit values that require monitoring at the workplace: Not required.
- Additional information: The lists that were valid during the creation were used as basis.

- Additional information about design of technical systems: No further data; see section 7.
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Store protective clothing separately. Avoid contact with the eyes and skin.
- **Breathing equipment:** Short term filter device: Filter P3

## Safety Data Sheet acc. to OSHA HCS

Printing date 03/04/2024

Reviewed on 03/04/2024

Trade name: Cytochalasin B

· Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

• Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

- Penetration time of glove material:
- The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
- $\cdot$  For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:

Natural rubber, NR Nitrile rubber, NBR

· Eye protection: Safety glasses

· Body protection: Protective work clothing

### 9 Physical and chemical properties

• Information on basic physical and chemical p	properties
· General Information:	
· Color:	White
· Odor:	Characteristic
• Odor threshold:	Not determined.
• Melting point/Melting range:	215-226 °C (419-438.8 °F)
· Boiling point/Boiling range:	No information available
· Flammability (solid, gaseous):	No information available
· Explosion limits:	
· Lower:	No information available
· Upper:	No information available
· Flash point:	No information available
· Decomposition temperature:	No information available
· Viscosity:	·
· Kinematic viscosity:	No information available
· Dynamic viscosity:	No information available
· Solubility in / Miscibility with:	•
· Water:	no information available
· organic solvents:	Soluble in many organic solvents.
· Partition coefficient (n-octanol/water):	No information available
· Vapor pressure:	No information available
· Vapor pressure:	
· Density:	No information available
· Relative density:	No information available
· Other information	Further physicochemical data are not available.
· Appearance:	
· Form:	lyophilisate
· Important information on protection of health	h and
environment, and on safety:	
• Danger of explosion:	The product is not explosive, but the formation of
~	explosive dust/air mixtures is possible.
· Molecular weight	479.6 g/mol

# **10 Stability and reactivity**

- · Reactivity: No further relevant information available.
- · Chemical stability:
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- *Possibility of hazardous reactions:* No further relevant information available.
- · Conditions to avoid: Avoid high temperatures, flames, sparks
- Incompatible materials: Avoid contact with strong oxidizing agents and reducing agents.
- · Hazardous decomposition products: In case of fire: see section 5

#### **11 Toxicological information**

- · Information on toxicological effects
- Acute toxicity: Fatal if swallowed, in contact with skin or if inhaled.

· LD/LC50 values that are relevant for classification:

Oral LD50 35 mg/kg (mouse)

- · Additional toxicological information:
- · Carcinogenic categories
- · IARC (International Agency for Research on Cancer) Substance is not listed.
- · NTP (National Toxicology Program) Substance is not listed.
- · OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

## **12 Ecological information**

- · Toxicity:
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability: No further relevant information available.
- · *Bioaccumulative potential:* No further relevant information available.
- *Mobility in soil:* No further relevant information available.
- Results of PBT and vPvB assessment:
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects:
- · Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system. Water hazard class 2 (Self-assessment): hazardous for water

## **13 Disposal considerations**

- · Waste treatment methods
- · Recommendation:

Dispose of in accordance with official regulations. Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- · Recommendation:

Uncleaned packaging must be disposed of in the same way as the product in accordance with official regulations.
