Safety Data Sheet acc. to OSHA HCS

Printing date 04/20/2023

Reviewed on 04/20/2023

Trade name: Hyaluronidase from ovine testes min. 1000 U/mg

· HMIS-ratings (scale 0 - 4)

• Other hazards

· Results of PBT and vPvB assessment:

· **PBT:** PBT - assessment not available.

· **vPvB**: vPvB - assessment not available.

3 Composition/information on ingredients

- · Chemical characterization: Substances
- · CAS No. Description:
- 37326-33-3 Hyaluronoglucosaminidase
- Identification number(s):
- · EC number: 253-464-3
- · Description:
- MW: ca. 55 000

4 First-aid measures

- · Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Immediately wash with water and soap and rinse thoroughly. Consult doctor if you feel unwell.
- · After eye contact:

Rinse opened eye for several minutes under running water. Remove present contact lenses, if easy to do, and continue rinsing. Consult ophthalmologist In case of complaints.

- After swallowing:
- Wash out mouth. Drink plenty of water and supply fresh air. Consult doctor if you feel unwell.
- $\cdot \textit{Most important symptoms and effects, both acute and delayed} \ \textit{No further relevant information available}.$
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- CO_{2} extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • Special hazards arising from the substance or mixture
- In case of fire, the following can be released: Nitrogen oxides (NOx)
- Carbon monoxide and carbon dioxide
- Advice for firefighters
- Protective equipment: Wear self-contained respiratory protective device.

6 Accidental release measures

- *Personal precautions, protective equipment and emergency procedures Wear protective clothing. Ensure adequate ventilation*
- Environmental precautions: Do not allow to enter sewers/ surface or ground water.

Printing date 04/20/2023

Reviewed on 04/20/2023

Trade name: Hyaluronidase from ovine testes min. 1000 U/mg

- *Methods and material for containment and cleaning up* Dispose contaminated material as waste according to item 13. Pick up mechanically.
- · Protective Action Criteria for Chemicals
- PAC-1: Substance is not listed.
- PAC-2: Substance is not listed.
- PAC-3: Substance is not listed.
- **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- *Precautions for safe handling:* Ensure good ventilation/exhaustion at the workplace. Prevent formation of dust.
- · Information about protection against explosions and fires: Keep ignition sources away Do not smoke.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- *Requirements to be met by storerooms and receptacles:* Store only in the original receptacle. Store at -15 to -25 °C
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed and store in dry conditions.
- *Specific end use(s): No further relevant information available.*

8 Exposure controls/personal protection

- · Control parameters
- · Components with limit values that require monitoring at the workplace: Not required.
- Additional information: The lists that were valid during the creation were used as basis.
- · Exposure controls
- Additional information about design of technical systems: No further data; see item 7.
- · Personal protective equipment:
- · General protective and hygienic measures:
- Keep away from foodstuffs, beverages and feed.
- Store protective clothing separately. Immediately remove all soiled and contaminated clothing.
- Avoid contact with the eves and skin.

Wash hands before breaks and at the end of work.

- **Breathing equipment:** Short term filter device: Filter P2
- Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Protective gloves

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

• Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Trade name: Hyaluronidase from ovine testes min. 1000 U/mg

- · Penetration time of glove material:
- The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.
- For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:
- Natural rubber, NR Nitrile rubber, NBR
- · Eye protection: Safety glasses
- · Body protection: Protective work clothing

9 Physical and chemical properties

· Information on basic physical and chemical	properties	
· General Information:		
· Color:	Beige	
· Odor:	Odorless	
· Odor threshold:	Not determined.	
• Melting point/Melting range:	no information available	
· Boiling point/Boiling range:	no information available	
· Flammability (solid, gaseous):	no information available	
• Explosion limits:		
· Lower:	no information available	
· Upper:	no information available	
· Flash point:	no information available	
• Decomposition temperature:	no information available	
· Viscosity:		
· Kinematic viscosity:	no information available	
· Dynamic viscosity:	no information available	
 Solubility in / Miscibility with: 		
· Water:	no information available	
· Partition coefficient (n-octanol/water):	no information available	
· Vapor pressure:	no information available	
· Density:	no information available	
· Relative density:	no information available	
· Other information	There are no more data available.	
· Appearance:		
· Form:	lyophilisate	
· Important information on protection of healt	h and	
environment, and on safety:		
• Danger of explosion:	Product is not explosive. However, formation of	
	explosive dust-/air mixtures are possible.	
· Molecular weight	~55,000 g/mol	

10 Stability and reactivity

· Reactivity: No further relevant information available.

· Chemical stability:

- · Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions: No further relevant informations available.
- · Conditions to avoid: No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: In case of fire: See Section 5

11 Toxicological information

- · Information on toxicological effects
- Acute toxicity: Based on available data, the classification criteria are not met.
- Sensitization: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- \cdot Additional toxicological information:
- · Carcinogenic categories
- · IARC (International Agency for Research on Cancer) Substance is not listed.
- · NTP (National Toxicology Program) Substance is not listed.
- · OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information

- · Toxicity:
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability: No further relevant information available.
- Bioaccumulative potential: No further relevant information available.
- · Mobility in soil: No further relevant information available.
- · Results of PBT and vPvB assessment:
- · *PBT*: Not applicable.
- · vPvB: Not applicable.
- Other adverse effects:
- · Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system.

Water hazard class 1 (Self-assessment): slightly hazardous for water

13 Disposal considerations

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

· Uncleaned packagings:

• Recommendation: Disposal must be made according to official regulations.

UN-Number		
DOT, ADR, ADN, IMDG, IATA	Void

• Transport in bulk according to Annex I MARPOL73/78 and the IBC Code	I of Not applicable.
· Transport/Additional information:	Not dangerous according to the above specifications.
· UN "Model Regulation":	Void

15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture No further relevant information available.
- Section 355 (extremely hazardous substances): Substance is not listed.
- · Section 313 (Specific toxic chemical listings): Substance is not listed.
- · TSCA (Toxic Substances Control Act): Substance is not listed.
- · Hazardous Air Pollutants Substance is not listed.
- · Proposition 65 Substance is not listed.
- · Chemicals known to cause cancer: Substance is not listed.
- · Chemicals known to cause reproductive toxicity for females: Substance is not listed.
- Chemicals known to cause reproductive toxicity for males: Substance is not listed.
- · Chemicals known to cause developmental toxicity: Substance is not listed.
- · Cancerogenity categories
- · EPA (Environmental Protection Agency) Substance is not listed.
- TLV (Threshold Limit Value) Substance is not listed.
- · NIOSH-Ca (National Institute for Occupational Safety and Health) Substance is not listed.
- · GHS label elements
- The substance is classified and labeled according to the Globally Harmonized System (GHS).
- Hazard pictograms GHS08
- · Signal word Danger
- · Hazard statements
- May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- · Precautionary statements
- Avoid breathing dust.
- [In case of inadequate ventilation] wear respiratory protection.
- IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- If experiencing respiratory symptoms: Call a poison center/doctor.
- Dispose of contents/container in accordance with local/regional/national/international regulations.
- · Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
