Reviewed on 10/10/2023

Trade name: Ribonuclease A from bovine pancreas min. 70 Kunitz units/mg

(Contd. of page 1)

· HMIS-ratings (scale 0 - 4)

• Other hazards

• Results of PBT and vPvB assessment:

· PBT: PBT - Assessment not available.

· **vPvB**: vPvB - Assessment not available.

#### **3** Composition/information on ingredients

- · Chemical characterization: Substances
- CAS No. Description: 9001-99-4 Nuclease, ribo-
- Identification number(s):
- EC number: 232-646-6
- · Description:
- **MW:** ca. 13 700

#### 4 First-aid measures

- · Description of first aid measures
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Immediately wash with water and soap and rinse thoroughly.
- Remove contaminated clothing immediately.
- · After eye contact:

Rinse opened eye for several minutes with running water. Remove existing contact lenses, if possible, and continue rinsing. In case of complaints, consult an ophthalmologist.

• After swallowing:

Wash out mouth. Drink plenty of water and supply fresh air. Consult doctor if you feel unwell.

- Most important symptoms and effects, both acute and delayed No further relevant information available.
- *Indication of any immediate medical attention and special treatment needed No further relevant information available.*

#### **5** Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents:
- $CO_{2}$  extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • Special hazards arising from the substance or mixture
- In case of fire, the following can be released:
- Nitrogen oxides (NOx)
- Carbon monoxide and carbon dioxide
- Advice for firefighters
- · Protective equipment: Wear self-contained breathing apparatus.

## 6 Accidental release measures

 Personal precautions, protective equipment and emergency procedures Wear protective clothing.
 Ensure adequate ventilation

Reviewed on 10/10/2023

## Trade name: Ribonuclease A

from bovine pancreas min. 70 Kunitz units/mg

Avoid contact with eyes and skin.

- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- · Methods and material for containment and cleaning up Dispose contaminated material as waste according to section 13. Pick up mechanically.
- · Protective Action Criteria for Chemicals
- · PAC-1: Substance is not listed.
- · PAC-2: Substance is not listed.
- · PAC-3: Substance is not listed.
- · Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

## 7 Handling and storage

- · Precautions for safe handling: Ensure good ventilation/exhaustion at the workplace. Avoid contact with eyes and skin. Prevent formation of dust.
- Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- $\cdot$  Requirements to be met by storerooms and receptacles: Storage at +2 to +8 °C
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Store container tightly closed and dry. This product is hygroscopic.
- · Specific end use(s): No further relevant information available.

#### 8 Exposure controls/personal protection

- · Control parameters
- · Components with limit values that require monitoring at the workplace: Not required.
- · Additional information: The lists that were valid during the creation were used as basis.
- · Exposure controls
- · Additional information about design of technical systems: No further data; see section 7.
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Store protective clothing separately. Immediately remove all soiled and contaminated clothing. Avoid contact with the eyes and skin.
- Wash hands before breaks and at the end of work.
- Breathing equipment: Short term filter device: Filter P2
- · Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· Penetration time of glove material:

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

 $\cdot$  For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:

Natural rubber, NR

Nitrile rubber, NBR

• Eye protection: Safety glasses

· Body protection: Protective work clothing

# 9 Physical and chemical properties

• Information on basic physical and chemical pro	perties
• General Information:	XX71 *.
· Color:	White
• Odor:	Odorless
• Odor threshold:	No information available
• Melting point/Melting range:	not applicable (decomposition)
• Boiling point/Boiling range:	not applicable (decomposition)
· Flammability (solid, gaseous):	No information available
· Explosion limits:	
· Lower:	No information available
· Upper:	No information available
· Flash point:	No information available
• Decomposition temperature:	No information available
· pH-value:	No information available
· Viscosity:	
· Kinematic viscosity:	No information available
· Dynamic viscosity:	No information available
<ul> <li>Solubility in / Miscibility with:</li> </ul>	
· Water:	Not determined.
· Partition coefficient (n-octanol/water):	No information available
· Vapor pressure:	No information available
· Vapor pressure:	
· Density:	No information available
· Relative density:	No information available
· Other information	
· Appearance:	
· Form:	lyophilisate
· Important information on protection of health a	nd
environment, and on safety:	
• Danger of explosion:	Product does not present an explosion hazard.
· Molecular weight	~13,700 g/mol

## 10 Stability and reactivity

· Reactivity: No further relevant information available.

· Possibility of hazardous reactions: No further relevant information available.

· Chemical stability:

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

#### • Conditions to avoid:

Humidity

- High temperatures • Incompatible materials: Avoid contact with strong oxidizers.
- Hazardous decomposition products: In case of fire: see section 5

#### **11** Toxicological information

- · Information on toxicological effects
- · Acute toxicity: Based on available data, the classification criteria are not met.
- Sensitization: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- · Additional toxicological information:
- · Carcinogenic categories
- · IARC (International Agency for Research on Cancer) Substance is not listed.
- · NTP (National Toxicology Program) Substance is not listed.
- · OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

### **12 Ecological information**

- · Toxicity:
- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability: No further relevant information available.
- · Bioaccumulative potential: No further relevant information available.
- Mobility in soil: No further relevant information available.
- · Results of PBT and vPvB assessment:
- **PBT:** Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects:
- · Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system. Water hazard class 1 (Self-assessment): slightly hazardous for water

#### **13 Disposal considerations**

#### · Waste treatment methods

· Recommendation:

Dispose of in accordance with official regulations. Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- · Recommendation:

Uncleaned packaging must be disposed of in the same way as the product in accordance with official regulations.

# **15 Regulatory information**

- Safety, health and environmental regulations/legislation specific for the substance or mixture No further relevant information available.
- Section 355 (extremely hazardous substances): Substance is not listed.
- Section 313 (Specific toxic chemical listings): Substance is not listed.
- · TSCA (Toxic Substances Control Act): ACTIVE
- · Hazardous Air Pollutants Substance is not listed.
- · Proposition 65 Substance is not listed.
- · Chemicals known to cause cancer: Substance is not listed.
- · Chemicals known to cause reproductive toxicity for females: Substance is not listed.
- · Chemicals known to cause reproductive toxicity for males: Substance is not listed.
- · Chemicals known to cause developmental toxicity: Substance is not listed.
- · Cancerogenity categories
- · EPA (Environmental Protection Agency) Substance is not listed.
- TLV (Threshold Limit Value) Substance is not listed.
- · NIOSH-Ca (National Institute for Occupational Safety and Health) Substance is not listed.
- · GHS label elements
- The substance is classified and labeled according to the Globally Harmonized System (GHS).
- · Hazard pictograms GHS08
- · Signal word Danger
- · Hazard statements
- May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- · Precautionary statements
- Avoid breathing dust.
- Wear respiratory protection.
- IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- If experiencing respiratory symptoms: Call a poison center/doctor.
- Dispose of contents/container in accordance with local/regional/national/international regulations.
- · Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
