(Contd. of page 1) If swallowed: Call a poison center/doctor if you feel unwell. If on skin: Wash with plenty of soap and water. IF INHALED: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. • Classification system: • NFPA ratings (scale 0 - 4)
Health = 2 Fire = 3 Reactivity = 0 HMIS-ratings (scale 0 - 4)
HEALTH2HEALTH2FIRE3REACTIVITY0
 Other hazards Results of PBT and vPvB assessment: PBT: PBT - Assessment not available. vPvB: vPvB - Assessment not available.
3 Composition/information on ingredients

- · Chemical characterization: Substances
- CAS No. Description: 75-05-8 Acetonitrile
- Identification number(s):
- EC number: 200-835-2
- · Index number: 608-001-00-3
- · Description:
- Empirical formula: $C_2 H_3 N$
- **MW:** 41.05

4 First-aid measures

· Description of first aid measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:
- Wash off immediately with soap and water and rinse thoroughly. In case of complaints, consult a doctor. *After eye contact:*
- Rinse opened eye for several minutes with running water. Remove existing contact lenses, if possible, and continue rinsing. Consult an ophthalmologist immediately.
- *After swallowing: Rinse out mouth. Call a doctor immediately. Do not induce vomiting!*
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- *Indication of any immediate medical attention and special treatment needed* No further relevant information available.

5 *Fire-fighting measures*

- · Extinguishing media
- · Suitable extinguishing agents:

 CO_{2} extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam. • Special hazards arising from the substance or mixture

Flammable substance, vapors are heavier than air and spread on the ground. Vapors may accumulate in low-lying areas.

Vapors may form flammable and explosive mixtures with air.

Formation of hazardous vapors and gases possible during heating or in case of fire. In case of fire, the following can be released:

Nitro and and the (NOn)

- Nitrogen oxides (NOx)
- Carbon monoxide and carbon dioxide Hydrogen cyanide (HCN)
- · Advice for firefighters
- **Protective equipment:** Wear self-contained breathing apparatus.
- Additional information Collect contaminated fire fighting water separately. It must not enter the sewage system. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Wear protective clothing.
 Ensure adequate ventilation
 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- Methods and material for containment and cleaning up Dispose contaminated material as waste according to section 13. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- · Protective Action Criteria for Chemicals
- · PAC-1: 13 ppm
- · PAC-2: 50 ppm
- · PAC-3: 150 ppm
- **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- · Precautions for safe handling: Ensure good ventilation/exhaustion at the workplace.
- · Information about protection against explosions and fires:
- Protect against electrostatic charges. Keep ignition sources away - Do not smoke.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Do not store together with oxidizing materials.
- · Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.
- *Specific end use(s): No further relevant information available.*

8 Exposure controls/personal protection			
· Control parameters			
• Components with limit values that require n	nonitoring at the workplace.		
75-05-8 Acetonitrile (80-100%)			
PEL Long-term value: 70 mg/m ³ , 40 ppm			
REL Long-term value: 34 mg/m ³ , 20 ppm			
TLV Long-term value: 20 ppm			
Skin, A4			
• Additional information: The lists that were w	valid during the creation were used as basis.		
· Exposure controls			
· Additional information about design of tech	nical systems: No further data; see section 7.		
· Personal protective equipment:			
• General protective and hygienic measures:			
Keep away from foodstuffs, beverages and fe	ed.		
Store protective clothing separately.			
Immediately remove all soiled and contamination	ated clothing.		
Avoid contact with the eyes and skin.	1		
Wash hands before breaks and at the end of	work.		
· Breathing equipment:			
Short term filter device: Filter ABEK-P2			
• Protection of hands:			
	id resistant to the product the substance the preparation		
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/			
the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation			
		• Material of gloves:	
			not only depend on the material, but also on further marks of
quality and varies from manufacturer to man	pufacturer.		
• Penetration time of glove material:			
The exact break trough time has to be found	l out by the manufacturer of the protective gloves and has to be		
observed.			
	n of 15 minutes gloves made of the following materials are		
suitable:			
Butyl rubber, BR			
Neoprene gloves			
• Eye protection: Tightly sealed goggles • Body protection: Protective work clothing			
· body protection. I rotective work clothing			
9 Physical and chemical properties			
Information on basic physical and chemical	Inconerties		
• General Information:	· Proportion		
· Color:	Colorless		
· Odor:	Pungent		
· Odor threshold:	not determined.		
• Melting point/Melting range:	-46 °C (-50.8 °F)		
· Boiling point/Boiling range:	81 °C (177.8 °F)		
· Flammability (solid, gaseous):	Highly flammable liquid and vapor according to CLP		
	Regulation (EU) No. 1272/2008: Flam. Liq. 2 H225		
· Explosion limits:	-		
· Lower:	4.4 Vol %

Decomposition temperature:	No information available
pH-value:	No information available
Viscosity:	·
Kinematic viscosity:	No information available
Dynamic viscosity at 20 °C (68 °F):	0.39 mPas
Solubility in / Miscibility with:	
Water:	Fully miscible.
Partition coefficient (n-octanol/water):	-0.54061
Vapor pressure at 20 °C (68 °F):	97 hPa (72.8 mm Hg)
Vapor pressure at 50 °C (122 °F):	330 hPa (247.5 mm Hg)
Density at 20 °C (68 °F):	0.78 g/cm ³ (6.5091 lbs/gal)
Relative density:	No information available
Other information	
Appearance:	
Form:	Liquid
Important information on protection of health and	
environment, and on safety:	
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.
Molecular weight	41.05 g/mol

10 Stability and reactivity

· Reactivity: No further relevant information available.

· Chemical stability:

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions: Vapors may form flammable and explosive mixtures with air.
- · Conditions to avoid: Avoid high temperatures, flames, sparks
- · Incompatible materials: Avoid contact with strong oxidizing agents, strong acids, strong alkalis.

· Hazardous decomposition products: In case of fire: see section 5

11 Toxicological information

· Information on toxicological effects

· Acute toxicity: Harmful if swallowed, in contact with skin or if inhaled.

· LD/LC50 values that are relevant for classification:

Oral	LD50	2,460 mg/kg (rat)
Dermal	LD50	980 mg/kg (rabbit)
Inhalative	LC50/4h	29 mg/l (rat)
	LC50/96h	1,000 mg/l (fish)

• on the eye: Causes serious eye irritation.

· Additional toxicological information:

· Carcinogenic categories

· IARC (International Agency for Research on Cancer) Substance is not listed.

· NTP (National Toxicology Program) Substance is not listed.

· OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

12 Ecological information

Trade name: Acetonitrile for HPLC

- · Toxicity:
- Aquatic toxicity: Toxicity to fish: NOEC (21d, Oryzias latipes): > 102 mg/l
- · Persistence and degradability: No further relevant information available.
- *Bioaccumulative potential:* Due to the distribution coefficient n-octanol/water an accumulation in organisms is not expected. Partition coefficient n-octanol/water log P(o/w) = -0.54061
- · Mobility in soil: No further relevant information available.
- · Results of PBT and vPvB assessment:
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects:
- · Additional ecological information:
- · General notes:

Do not allow product to reach ground water, water course or sewage system. Water hazard class 2 (Assessment by list): hazardous for water

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- · Recommendation:

Uncleaned packaging must be disposed of in the same way as the product in accordance with official regulations.

• Recommended cleansing agent: Water, if necessary with cleansing agents.

15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture No further relevant information available.
- · Section 355 (extremely hazardous substances): Substance is not listed.
- · Section 313 (Specific toxic chemical listings): Substance is listed.
- · TSCA (Toxic Substances Control Act): ACTIVE
- · Hazardous Air Pollutants Substance is listed.
- · Proposition 65 Substance is not listed.
- · Chemicals known to cause cancer: Substance is not listed.
- · Chemicals known to cause reproductive toxicity for females: Substance is not listed.
- · Chemicals known to cause reproductive toxicity for males: Substance is not listed.
- · Chemicals known to cause developmental toxicity: Substance is not listed.
- · Cancerogenity categories
- · EPA (Environmental Protection Agency) CBD, D
- TLV (Threshold Limit Value) A4
- NIOSH-Ca (National Institute for Occupational Safety and Health) Substance is not listed. • GHS label elements
- The substance is classified and labeled according to the Globally Harmonized System (GHS).
- · Hazard pictograms GHS02, GHS07
- · Signal word Danger
- · Hazard statements
- Highly flammable liquid and vapor. Harmful if swallowed, in contact with skin or if inhaled. Causes serious eye irritation.
- **Precautionary statements** Take precautionary measures against static discharge.
