

SERVA Tris-Tricine/SDS Electrophoresis Buffer (20x)

Cat. No. 42560

Product description:

General Running buffer for SDS-PAGE, 20x concentrate. Optimized formulation to improve band sharpness, especially when used together with SERVAGel™ Neutral pH 7.4 (Cat. No. 43220) precast gels.

Composition	Components	Concentration
	TRIS	1.2 M
	Tricine	0.8 M
	SDS	2 %
	pH 8.5 ± 0.2	

Storage The recommended storage temperature is +15 °C – +30 °C.

Working solution:

To prepare 1 l 1x running buffer:

To 50 ml 20x concentrate add 950 ml deionized water.

Concentration of components in 1x solution:

0.06 M TRIS
0.04 M Tricine
0.1 % SDS
