Detergent 7 X[®], DNADecon & GermDecon

Effective cleaning of laboratory equipment and surfaces in cell and tissue culture and molecular biology

Detergent 7 X[®] has proven to be particularly suitable for the cleaning of laboratory glassware and instruments. It removes any traces of chemical contamination which may interfere with cell growth or other biological processes.

Features

- Dries residue-free within seconds
- Non-toxic for cell and tissue culture
- No etching of delicate glassware
- Immediately and completely soluble in water, independent of concentration
- Environment-friendly, since phosphate-free

DNADecon is a highly effective, ready-to-use spray solution for removing DNA and RNA contaminants on surfaces, devices and laboratory equipment.

GermDecon is effective against *Bacillus subtilis*, *Candida albicans*, *Clostridium*, *Coliforms*, *E. coli*, *Enterococcus faecalis*, *Listeria*, *MRSA*, *Pseudomonas aeruginosa*, *Proteus mirabilis*, *Salmonella*, *Staphylococcus aureus*, *Streptococcus pyogenes* and fungi.

Features

- Provided in a spray bottle for easy application
- Ready-to-use
- Easy handling
- Non-alkaline
- Non-carcinogenic
